Learning Objectives

The Plot

What happens in the story? A thoroughly fun and engaging introduction to the famous tales with an emphasis on empathy and how feelings can affect actions. A good look at beginnings, middles and ends and how the story takes the audience on a journey.

The Characters

Who are the characters and what do they want? How do we know - what did the writer do to show us? And how do actors show the audience? This is a chance for learner to get up and perform in an expressive role that will challenge and delight them.

Staging a Play

What goes into putting on a play. From learning lines and reading aloud to perform a scene, to understanding all roles and jobs in theatre. We'll look at making props and costumes, and show how aspiring writers can make their own stories for stage.
